STATE CLEARINGHOUSE

NEWSLETTER

May 16-31, 2006

STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **May 16-31, 2006**.

CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613
Fax: (916) 323-3018
e-mail: state.clearinghouse@opr.ca.gov
website: www.opr.ca.gov/clearinghouse/clearinghouse.shtml

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

Scott Morgan
Senior Planner

CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE
P.O. BOX 3044
SACRAMENTO, CA 95812-3044

INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

MEMORANDUM

Governor's Office of Planning and Research State Clearinghouse

Date: December 5, 2003

To: All CEQA Lead Agencies

From: Terry Roberts, Director, State Clearinghouse

Re: Submission of Electronic CEQA Documents to State Clearinghouse

In order to take advantage of the cost and time savings associated with electronic documents, the State Clearinghouse will accept electronic documents under the following conditions:

1. Electronic documents shall be on CD, and the file format shall be either Adobe PDF or Microsoft Word.
2. For EIRs, each CDs must be accompanied by a printed copy of the Executive Summary. This allows the State Clearinghouse and the reviewing agencies to efficiently route the document to the proper persons.
3. Negative Declarations and Mitigated Negative Declarations will not be accepted on CD. However, any separately bound technical appendices to the document may be submitted on CD.
4. For certain projects, particularly large infrastructure projects such as airport expansions, the State Clearinghouse may request a certain number of hard copies. In addition, the lead agency shall honor a special request from a responsible or trustee agency which requires a hardcopy for purposes of review and comment.
5. This policy does not invalidate CEQA Guideline §15205, which requires a public agency submitting printed documents to the State Clearinghouse to send, in addition, an electronic copy of the document, *if available*.

If you have any questions regarding the submission and circulation of environmental documents, please contact the State Clearinghouse at (916) 445-0613 or state.clearinghouse@opr.ca.gov.

**ENVIRONMENTAL DOCUMENT FILINGS WITH THE STATE CLEARINGHOUSE
1999 through 2005**

All CEQA documents filed with the State Clearinghouse are available for viewing on the Internet at <http://www.ceqanet.ca.gov/>

SUMMARY OF CEQA DOCUMENT SUBMITTALS BY YEAR AND BY TYPE

<u>Documents Received on Tuesday, May 16, 2006</u>			
2005122126	Sierra College Tahoe Truckee Campus Sierra Joint Community College District Truckee--Nevada Sierra College proposes to construct, in multiple phases, a 74,000 s.f. educational/administrative facility and 200 bed employee/student housing apartment complex on a portion of the +/-73.65 acres site known as McIver Hill located in at the southeast quadrant of Interstate 80 (I-80) and State Route 89 (SR 89) in Truckee, California.	EIR	06/29/2006
2006052103	Sacramento River Bank Protection Project, Five Critical Erosion Sites at River Miles L 26.9L, 34.5R, 72.2R, 99.3R, 123.5 Reclamation Board West Sacramento--Sacramento, Yolo, Sutter The State of California Reclamation Board in partnership with the U.S. Army Corps of Engineers (Corps) and (Reclamation Board) in the Sacramento River Bank Protection Project propose to implement bank protection measures to prevent ongoing streambank erosion at five critically eroding sites along the Sacramento River. The five sites are River Miles (RM) 26.9L, RM 34.5L, RM 72.2R, RM 99.3R, and RM 123.5L along the Sacramento River in Yolo, Sacramento, and Sutter counties. These five sites are among 24 critical erosion sites in Governor Schwarzenegger's February 24, 2006 Declaration of State of Emergency of California Levee System, and March 7, 2006 Executive Order S-01-06. Erosion into the banks at these sites requires immediate work to prevent levee failure.	JD	06/05/2006
2004021075	Southwest Campus of Mt. San Jacinto College Mt. San Jacinto Community College District --Riverside The proposed project would be constructed on 80.48 acres of vacant land. The elevation of the site ranges from 1,420 feet to 1,592 feet above mean sea level and is characterized by a fairly flat area with gently rolling foothills stating on the northerly portion of the site. The vegetation on site consists of coastal sage scrub (CSS), chaparral, annual grasslands, and riparian woodland plant communities.	NOP	06/14/2006
2006051081	Rich Haven Specific Plan, File No. PSP05-004 Ontario, City of Ontario--San Bernardino The proposed Rich-Haven Specific Plan encompasses approximately 510 gross acres with a maximum development capacity of 4,259 dwelling units and 848,400 square feet of regional commercial/office. The Land Use Plan for the Specific Plan includes a Residential District and Commercial District comprised of twenty-one Planning Areas (PAs). The Residential District includes nineteen PAs providing a mixture of low-, medium-, and high-density residential uses with a maximum of 4,259 dwelling units and a Regional Commercial District that includes three PAs. The Regional Commercial District includes three PAs (20, 21A, and 21B) planned for a mixture of a variety of uses including commercial, office, vertical residential, medical office, and research, as well as a "Stand Overlay" allowing for stand alone residential neighborhoods. The Regional Commercial District includes PA 20 incorporating 725 residential units and 400,000 square feet of commercial/office uses and 1,052 residential units. The public facilities within the Specific Plan include 20.1 acre Southern California Edison easements, and a 24.8 acre Middle School. Final plans for the project would include an allowance for a transfer of	NOP	06/14/2006

	residential density from the Regional Commercial District within Planning Areas 20 and/or 21 to Residential PAs within the Residential District (PAs 8 to 19).		
2006052112	El Charro Specific Plan Livermore, City of Livermore--Alameda Specific Plan for development in the El Charro area of the City of Livermore.	NOP	06/14/2006
2006051079	Tentative Tract Map 17940 Adelanto, City of Adelanto--San Bernardino The applicant is proposing a tentative tract map to subdivide an approximately 20-acre site into 72 single family residential lots with a minimum lot size of 7,200 sf.	Neg	06/14/2006
2006051080	Kettleman City Rehabilitation Project 06-Kin-41 (PM 11.5/20.1) Caltrans #6 Kettleman--Kings The California Department of Transportation (Caltrans) proposes to widen and rehabilitate a portion of State Route 41 from Quail Avenue to Utica Avenue (from post miles 11.5 to 20.1) in Kings County, California. The proposed work would widen the existing shoulder, rehabilitate the existing pavement, place new metal-beam guardrails or reconstruct existing ones, resurface Route 41/15 on-ramps and off-ramps with rubberized asphalt concrete, use Portland cement Concrete at the off-ramp terminus, replace asphalt concrete dike, and improve drainage.	Neg	06/14/2006
2006052104	Tentative Subdivision Map Application 5-13-05, Wyndham Pointe Subdivision, by Frank Coughlin and Tim Greenhood Redding, City of Redding--Shasta Proposal to subdivide 33.93 acres to create 74 single-family residential lots and 5 duplex residential lots into three phases. The project proposes lots ranging in size from 7,014 to 16,578 square feet, with the majority of lots averaging 8,000 square feet in area. The project would also include construction of on-site streets, walking trail, and utility and storm-drainage improvements necessary to serve the lots.	Neg	06/14/2006
2006052105	Stonebridge- 950 S. Wright Road, Santa Rosa, CA Santa Rosa, City of Santa Rosa--Sonoma The applicant proposes to change the General Plan designation of 9.49 acres from PI (Public Institutional) to Residential Medium Density and rezone the area from PI (Public Institutional) to R-3-18 (Multifamily Residential).	Neg	06/14/2006
2006052106	Site Approval for 672 Square Foot Sign in Tracy San Joaquin County Community Development Department Tracy--San Joaquin A Site Approval Application to build a 672 square foot illuminated, V-shaped, 50 foot high, off-premises sign.	Neg	06/14/2006
2006052107	Longs Drug South Combs Napa, City of Napa--Napa Application to construct a 15,600 square foot Longs Drugs Store with a drive thru pharmacy on the 1.60 acre commercial property at 291 South Coombs Street. A 67 car parking lot and on-site landscaping will be developed in conjunction with the project. Project approvals include: 1) a Use Permit to authorize a drive-thru	Neg	06/14/2006

	pharmacy; and 2) Design Review of the proposed site plan and building.		
2006052108	West El Camino Bridge Replacement (TZ71) Sacramento, City of Sacramento--Sacramento The City of Sacramento proposes to remove and replace the existing West El Camino bridge structure that crosses the NEMDC/Steelhead Creek. The new bridge will be an at-grade replacement to avoid major impacts to the adjacent neighborhoods and additional costs. The west approach (vertical curves) grade will be modified slightly and the east approach will be modified to a flatter grade at the railroad tracks. The proposed bridge replacement is a pre-stressed cast-in-place concrete slab bridge supported by five bents of five columns each. The new bridge will be approximately 58 ft. 2 in. wide and 328 ft. long and will provide two 12-ft. traffic lanes, 6-ft. bike lanes (shoulders), 8-ft. pedestrian sidewalks that are separated from the shoulder with a concrete barrier, and a 2 ft. raised median. In addition, a temporary pedestrian/bike bridge will be constructed to allow residences access during construction of the bridge. The bridge may be closed and replaced in one summer construction season or replaced in stages over two construction seasons to maintain traffic on (West) El Camino Avenue.	Neg	06/14/2006
2006052109	Avantino Subdivision Etna, City of Etna--Siskiyou The applicant has proposed a 50-lot single-family residential subdivision on land zoned R-3, High Density Residential. As proposed, the lots would range in size from 6,836 to 11,300 square feet. The site is approximately 15.8 acres in size, with the residential portion of the subdivision being proposed on 8.54 acres. Portions of the remaining 6.26 acres would be improved with roadways, curbs, gutters and sidewalks, while the remainder would be used to construct wetlands and a stormwater detention basin.	Neg	06/14/2006
2006052110	TTM04-1009 and PDUP No. 356 Red Bluff, City of Red Bluff--Tehama The proposed project will subdivide an existng lot (APN 33-090-46), totalling approximately 2 acres, into 13 multi-family residential lots (Duplex's). Lot size will be approximately: Lot 1- 7,505sf. Lot 2- 5,608sf. Lot 3- 7,519sf. Lot 4-5,663sf. Lot 5- 8,377sf. Lot 6- 7,799sf. Lot 7- 8,630sf. Lot 8- 9,310sf. Lot 9- 8,281sf. Lot 10- 4,237sf. Lot 11- 4,718sf. Lot 12- 5,682sf. Lot 13- 5,455sf. The project site has been graded for four tears with a sewer easement along the eastern and southern property lines. Therefore, extensive grading or site disturbance is not expected for the proposed project.	Neg	06/14/2006
2006052111	Pacific Landscape c/o Darryl Orr Sonoma County Permit and Resource Management Department Sebastopol--Sonoma Request for a Use Permit and Design Review for a relocation of an existing landscape contractors yard and a new 4,000 square foot office/warehouse structure on 1.42 acres.	Neg	06/14/2006

1994032011	Highway 59 Landfill Expansion Merced County Revise the Report of Facility Information (RFI) for the Hwy. 59 Landfill to reflect the removal of soil offsite.	NOD	
1996112014	Roseville Specific Plan Roseville, City of Roseville--Placer The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 2006-0065-R2 pursuant to Section 1602 of the Fish and Game Code to the project operator, City of Roseville: Construct one pedestrian trail/culvert crossing.	NOD	
2005081111	Applied Technology Training Center for San Bernardino Community College District San Bernardino Community College District Highland, Redlands--San Bernardino The proposed project consists of the construction and operation of the ATTC building in the City of San Bernardino. The ATTC would be considered an annex or Phase II to the existing Professional Development Center (PDC) facility located to the east. The ATTC would consist of a 10,000 square-foot-building located on approximately one acre of the approximately 4.6-acre parcel of land owned by the SBCCD at the northeast corner of Frank Bland Street and Enterprise Street. The one-story building would consist of computer lab training space, lecture hall/executive training space, and offices, and support space such as restrooms, break rooms, a conference room, and storage. The computer lab would have space for 40 students and an instructor. The lecture hall/training space could be configured either as a 208-seat auditorium, or three separate lecture halls with space for 112 students. The building would have office space for approximately 8 to 10 employees. The existing California live oak trees on the southern and western boundaries of the project site would be incorporated into the landscaping plan for the new building.	NOD	
2006021137	McCormick Selph Incorporated Hazardous Waste Facility Permit Renewal Toxic Substances Control, Department of Hollister--San Benito DTSC is renewing a Hazardous Waste Facility Permit (Permit) for McCormick Selph, Inc. (MSI) in accordance with California Health and Safety Code, division 20, chapter 7.5, section 25200 and the California Code of Regulations, title 22, division 4.5. The MSI facility (Facility) would be reauthorized to perform hazardous waste management activities under a Resource Conservation and Recovery Act (RCRA) equivalent permit. MSI's hazardous waste management activities are fully described in the "Facilities Hazardous Waste Operations Plan," (FWWOP) dated January 4, 2006, which contains the Part "A" and Part "B" Permit Applications.	NOD	
2006042007	Tentative Tract Map 05-1021; TK Ranch Subdivision Corning, City of Corning--Tehama To create 35 parcels for single-family residential use in an R-1-8 zoning district. APN 73-120-18; approximately 10.0 acres.	NOD

2006042064	Well 19 and 22 Uranium Removal System Ceres, City of Ceres--Stanislaus This project is proposing the installation of a Uranium Removal System on two existing wells within the City of Ceres. This system will reduce the amount of uranium in the water to meet standards set by the California Department of Health Services. The Uranium Removal System will not increase the two wells' current gallon per minute production, but rather remove necessary Uranium contaminants prior to being introduced into the City's delivery system and utilized by customers.	NOD	
2006059023	Lakeside Auto Retail Center Folsom, City of Folsom--Sacramento The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 2006-0079-R2 pursuant to Section 1602 of the Fish and Game Code to the project operator, Buzz Oates Construction of Sacramento, CA: Filling 0.052 acre of riparian habitat.	NOD	
2006058168	Folsom Powerhouse Forebay Fence Extension Parks and Recreation, Department of --Sacramento Install a vertical extension to the existing three-foot high fence surrounding the forebay at the Folsom Powerhouse State Historic Park. The extension is necessary to meet Cal OSHA public safety requirements for the fence height. The extension will be accomplished by clamping additional vertical and horizontal support pipes to the existing pipe fence posts. The new pipe will match the existing pipe posts as closely as possible. The new pipe will be clamped or wired to the existing pipe, requiring no drilling or damage to the existing pipe and the entire pipe extension will be reversible. Prior to any work being completed, photographs will be taken to document the existing fence. After completion of the project, photographs will be taken to provide a record of the project. Photographs will be stored in the District Cultural Resource Specialist files.	NOE	
2006058169	Install No Parking Signs and Stop Signs at Granite Bay Entrance Parks and Recreation, Department of --Placer Install four "no parking" signs along the entrance and exit lanes at the Granite Bay entrance to Folsom Lake SRA. Install two "stop" signs on either side of the tiger teeth on the exit lane. The purpose of the signs are to help maintain traffic flow during peak use periods and to reduce the wear on the tiger teeth. Six holes approximately 10 inches diameter and 4 feet deep will be excavated to install the sign posts. The signs will be installed in areas where the ground has been previously disturbed.	NOE	
2006058170	New York Creek Bridge Construction and Trail Rehabilitation Parks and Recreation, Department of --El Dorado Construct a new sixty-foot long trail bridge across New York Creek along the Brown's Ravine/Salmon Falls Trail within Folsom Lake SRA. The new trail bridge will replace an existing ford crossing of the creek. The trail bridge will provide a safer crossing for trail users during periods of high water and will eliminate impacts to the creek and riparian zone from trail use. The project will also re-align several	NOE

	sections of this same trail, totaling 2,900 feet of new or re-constructed trail, in the vicinity of the creek crossing to eliminate erosion problems with these sections. The bridge work will involve constructing abutments for the bridge from stacked native rock and concrete, constructing trestle and puncheon sections of trail that will connect both ends of the bridge to the existing trail. A wood stringer bridge will be constructed across the two abutments. Construction of the bridge and trestle sections will require the use of a small excavator and loader. The trail re-routes will be completed using a combination of a hand crew and a small trail cat. The abandoned sections of trail will be rehabilitated. Best management practices will be employed to prevent erosion and sediment run-off. A qualified archaeologist will monitor the excavation necessary for the bridge abutments and trestle/puncheons and the trail rehabilitation work. The work is scheduled for the fall of 2006. The project will be conducted in compliance with the terms of water quality certification and streambed alteration permits.		
2006058171	Sacramento 50 Minor B, Underdrain Project Caltrans #3 Sacramento--Sacramento To install an underdrain system of solid and perforated pipes beneath the eastbound lanes of U.S. Highway 50 from the median to an unpaved area adjacent to the eastbound on-ramp of Scott Road and East Bidwell Street. The purpose of the perforated pipe is to remove excess water from the freeway.	NOE	
2006058172	Les Schwab Tire Center Variance Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of a Variance to reduce the required side street yard setback from 25 feet to 18 +/- feet, pursuant to Sacramento County Zoning Code Section 315-42 (b). The property is zoned SC.	NOE	
2006058173	Happy Lane Boundary Line Adjustment Sacramento County Dept. of Environmental Review Rancho Cordova--Sacramento The proposed project consists of a Boundary Line Adjustment between two adjacent parcels in the M-1 and M-1 (NPA) zones to accommodate future building expansion.	NOE	
2006058174	Bella Lago (Fair Oaks Lakes) Use Permit, Parcel Map Waiver and Affordable Housing Plan Sacramento County Dept. of Environmental Review --Sacramento The proposed project consists of the following: 1. A Use Permit to allow the conversion of a 288 unit apartment complex to "for-sale" condominiums in the RD-30 zone. 2. A Waiver from the Requirement for a Parcel Map (tentative and final) for condominiums, as allowed by the County Land Development Ordinance Title 22, Section 22.20.076. Note: The Waiver is necessary to permit the sale of individual project units as condominiums. The proposed waiver or land division will not result in any new uses being permitted on the property that are not otherwise permitted in the RD-30 zone. 3. An Affordable Housing Plan pursuant to the County's Affordable Housing Ordinance. The plan will consist of the provision of low and very low income housing units on the project site.	NOE

2006058256	Jenny Farms Conservation Bank Fish and Game, Lands and Facilities Unincorporated--Solano To acquire 406 acres of land in form of a Conservation Easement for the protection of habitat.	NOE	
2006058257	Hot Springs Road Right-of-Way Fuels Treatment Forestry and Fire Protection, Department of --Alpine Create roadside fuelbreak by removing trees under 8 inches dbh within 100 feet and brush within 20 feet of road bed edge on each side of Hot Springs Road over 30 acres so as to reduce the risk of catastrophic fire. Post-treatment stand shall have at least 10 feet between residual crowns or 20 feet between boles of trees, with average crown-to-base height of at least 20 feet. Post-treatment tree spacing will eliminate sustaining crown fires in the overstory by reducing ladder fuels. Post-harvest stocking level of 100 square feet of basal area. Individual brush plants shall be thinned to a spacing of 1.5 times the height of the remaining plants. All brush shall be removed from within the drip line of all trees. Post-treatment forest stand shall be dominated by larger, fire tolerant trees (16 inches dbh and greater) where surface and ladder fuels are reduced so crown fire ignitions are unlikely. All trees shall be limbed to 12-feet from base so as to remove ladder fuels thereby disrupting vertical fuel continuity. All slash and timber shall be treated by chipping and cutting larger material into firewood.	NOE	
2006058258	Streambed Alteration Agreement (1600-2005-0582-R5) Regarding the Gabion Repair - Stonecliff Project Fish & Game #5 Unincorporated--Orange The Operator proposes to alter the streambed by repairing a damaged gabion structure located within the Wagon Wheel Creek, initially damaged during the 1998 El Nino storms. As channel flows exit the downstream side of the gabion structure, they drop into an eroded basin along the southern boundary of the creek. The project proposes to divert the channel flows to the northern boundary of the creek, allowing flows to re-enter the natural stream course. The project proposes to temporary impact 0.12 acre of jurisdictional "waters of the U.S. and State" for the gabion repair work. Mitigation for temporary impacts to the Department jurisdiction within Wagon Wheel Creek for repair of the gabion structure will include restoration of the site, including revegetating with willow (Salix sp.), mule fat (Baccharis salicifolia), and cattail (Typha sp.) cuttings.	NOE

2006058259	<p>Streambed Alteration Agreement (1600-2005-0514-R5) Regarding Katelaris Property Channel Restoration Project Fish & Game #5 --Orange</p> <p>The Operator proposes to alter the bed, banks, and channel of an unnamed tributary to Santiago Creek for the purpose of restoring a segment of stream that was filled without notification to or authorization from the Department, and to restore capacity within an in-line pond (water impoundment, also used historically for irrigation) by the excavation of silt and sediment from the pond together with the construction of two fore-bays to control sediment entering the in-line pond. The activities will be conducted in four phases, with phase one consisting of the excavation of silt and sediment from the pond and the creation of the two fore-bays. The second phase will be the removal of wood chips, compost, and sediment from the stream, and the third phase will be the reconfiguration of the stream channel to achieve a natural channel morphology. The fourth phase is the installation and reintroduction of native vegetation to the reconfigured stream channel.</p> <p>SAA# 1600-2005-0514-R5</p>	NOE

<u>Documents Received on Wednesday, May 17, 2006</u>			
2003082132	Public Health Service Hospital Presidio Trust San Francisco--San Francisco The proposed project would adaptively reuse historic buildings within the Public Health Service Hospital district of the Presidio for residential use, and would implement related site improvements.	FIN	
2006052115	Breckenridge Lane Water Project Anderson, City of Anderson--Shasta Extension of City water distribution to serve northwest Anderson for health and safety needs.	JD	06/15/2006
2006052124	Backer Parcel Map EG-06-1005 Elk Grove, City of Elk Grove--Sacramento The project consists of a Tentative Parcel Map to divide a 5.98-acre (gross) parcel into three parcels. The project also includes an Exception from the requirement of public water for two parcels, an Exception from the public street frontage requirement, and an Exception from the minimum lot size for AR-2 zoned lots.	MND	06/16/2006
2006051085	Parc Anaheim Specific Plan Project Anaheim, City of Anaheim--Orange The project proposes construction of 449 multi-family residential units on 11.79 acres. Approximately 12,956 s.f. of commercial use is proposed in 30 live/work units and 2,975 s.f. of retail space is proposed.	NOP	06/15/2006
2006051086	Coronado Beach Facilities Improvements, Lifeguard Public Safety Service Building Coronado, City of Coronado--San Diego The proposed Lifeguard Public Safety Building involves construction and future operation of a 2,574 square foot building on the public beach west of the intersection of Isabella Avenue and Ocean Boulevard. The building would house existing lifeguard equipment and vehicles currently stored at other locations, an office, and staff shower and locker spaces. The proposed project will be located 70 feet northwest of the Central Beach Restroom and adjacent to the rock revetment that lines Ocean Boulevard. The proposed project would replace an existing 9-foot by 25-foot trailer parked next to the Beach Maintenance Facility. The existing trailer will be eliminated when the service building is completed.	NOP	06/15/2006
2006051087	Harvard Avenue Trunk Sewer Diversion Project Irvine Ranch Water District Irvine--Orange In order to fully utilize Irvine Ranch Water District's (IRWD) Michelson Water Reclamation Plant (MWRP) treatment capacity to provide additional recycled water, IRWD is proposing the Harvard Avenue Trunk Sewer (HATS) Diversion project. The HATS Diversion project would allow existing wastewater that currently flows to the Orange County Sanitation District (OCSD) system to be re-directed to the interceptor sewer's tributary to the MWRP. In March 2006, Earth Tech completed a preliminary planning report which identifies the proposed HATS Diversion project from several scenarios for diverting raw sewage from the HATS area to MWRP. No additional capacity to treat wastewater or to produce recycled water is proposed as part of the project.	NOP	06/15/2006

<u>Documents Received on Wednesday, May 17, 2006</u>			
2006052113	General Plan Amendment and Zoning Amendment for Colusa Industrial Properties Colusa County Colusa--Colusa Colusa Industrial Properties is proposing a Colusa County General Plan Amendment and Rezone for approximately 151 acres of industrial land within the Colusa Industrial Park. The amendment and rezoning would designate 50 acres of land Urban Residential (UR) / Single Family Residential (R-1-8); 17 acres Urban Residential / High Density Residential (R-4); 56 acres Open Space (O-S) / General Recreation (G-R); and 28 acres Commercial (C) / Neighborhood Commercial (C-1), Community Commercial (C-2) and Highway Commercial (CH).	NOP	06/15/2006
2006052117	City of Sonoma 2020 General Plan Update Sonoma, City of Sonoma--Sonoma The City of Sonoma proposes to revise and update its General Plan, extending the planning horizon to the year 2020. The update has been undertaken to address changing conditions in the community and region since the current General Plan was adopted in 1995. The initial study focuses on potential project-related impacts within the Sphere of Influence, rather than the Planning Area, especially with regard to direct impacts. This is because the jurisdiction of the City of Sonoma only applies within the Sphere of Influence. The Housing Element, which was updated in 2005, is not included in this update, except as necessary to assure internal consistency.	NOP	06/15/2006
2006052120	Morgan Ranch Specific Plan Tehama County Planning Department --Tehama The Morgan Ranch Development Project is a request for approval of a development plan (Specific Plan) to construct 3,950 dwelling units at various densities on the 1,308 acre site. The distribution of units amount the various housing types are proposed to be 2/3 active adult and 1/3 conventional single family homes.	NOP	06/15/2006
2006052121	Wastewater Treatment Plant and Reclamation Upgrade Project St. Helena, City of St. Helena--Napa The goal and objective of the proposed project is to upgrade and expand its existing WWTRP to include a treatment system to produce disinfected tertiary recycled water to meet California Regional Water Quality Control Board (RWQCB) discharge requirements and meet the City's 2010 demands for wastewater treatment. 2004091116	<p>Riverwalk Marketplace Commercial Center Porterville, City of Porterville--Tulare</p> <p>The project consists of a large regional commercial center on approximately 40 +/- acres in the southwestern portion of the City of Porterville, Tulare County. The center will be bounded by State Highway 190 on the south, Jaye Street on the east, Springville Avenue on the north and an undeveloped parcel east of Indiana Street on the west.</p> <p>The proposed project will consist of approximately 360,000 square feet of commercial buildings, primarily retail and restaurant uses, anchored by a 139,410 +/- square foot Lowe's home improvement store. The site plan also includes 123,000 +/- square feet of retail, and 54,769 +/- square feet of "pads" which would most likely include the restaurant uses.</p>	EIR	07/03/2006
2005121142	<p>Wilshire Center Los Angeles City Planning Department Los Angeles, City of--Los Angeles</p> <p>The proposed project includes the demolition of approximately 54,000 square feet of existing commercial uses and the construction of a new mixed-use development consisting of residential condominiums and retail space. The project includes two residential condominium high-rise buildings (Wilshire Tower and Vermont Tower) above a 4-level above grade parking podium and a one-level retail structure. The Wilshire Tower will include 287 units within 18 floors above the podium level (348,000 square feet of floor area) and the Vermont Tower will include 177 units within 10 floors above the podium level (211,000 square feet of floor area). Both residential buildings will include a combined total of 464 residential units built over 4 levels of above ground level parking, approximately 27,000 square feet of commercial retail space and up to 14,000 square feet of restaurant area on the ground floor, and 2 levels of subterranean parking. The proposed transit-oriented project is designed to incorporate a mixture of activities that support and encourage pedestrian activity in close proximity to the Wilshire/Vermont MTA Metro Red Line Station.</p>	EIR	07/03/2006
2006012055	<p>Lincoln and Mission Residential Condominium Project San Rafael, City of San Rafael--Marin</p> <p>The project site is currently developed with a 24-unit apartment complex (originally built as a motor court motel in 1936) and a single-family home that was constructed in 1907. Both the apartment complex structure and single-family home are eligible for the California Register of Historical Resources. The project applicant proposes to demolish the existing structures and construct 36 new residential condominiums within one five-story structure. Six of the proposed units would be sold as below-market-rate units. Each condominium would be a one or two bedroom unit, and between 734 and 1,460 square feet. The residential density would be approximately 32 units per acre, exclusive of the density bonus of seven units. The proposed project includes an Environmental and Design Review Permit: to permit the construction of a 36-unit residential condominium building; and a Use Permit: to permit a height bonus of 12 feet for affordable housing within the HR-1 Zone.</p>	EIR	07/03/2006

2002122122	RMC Pacific Vernalis Quarry San Joaquin County Community Development Department Tracy, Modesto--San Joaquin A Quarry Excavation and Reclamation application to excavate 1.7 to 4.0 million tons/year of sand and gravel on a 688-acre site in phases over a period of 26 to 60 years. Excavation of the site is expected to generate over 100 million tons of sand and gravel product over 26 to 60 years. The project includes processing of construction aggregates and reclamation of the site to agriculture in phases.	EIR	07/05/2006
2003052054	Samoa Town Master Plan Humboldt County Community Development Services Arcata, Eureka--Humboldt A General Plan Amendment (Local Coastal Amendment), Zone Reclassification, Urban Limit line extension, and interpretation of environmentally sensitive habitat areas (ESHAs) for 6 parcels making up the Samoa town site and encompassing approximately 171.7 acres. The parcels are to be part of large scale community development and revitalization project to be carried out under the Samoa Town Master Plan developed by the Samoa Pacific Group LLC. Additional permits are required for the phased implementation of the Master Plan and will be applied for at a later date following adoption of the General Plan Amendment and Zoning changes. The purpose of the proposed General Plan / Local Coastal Plan Amendment and Zone Reclassification is to facilitate implementation of the Samoa Town Master Plan development proposal.	EIR	07/03/2006
2003071058	Water Distribution System Master Plan and Wastewater Master Plan Elsinore Valley Municipal Water District Lake Elsinore, Canyon Lake, Murrieta, Unincorporated--Riverside EVMWD plans to improve and expand its water and wastewater facilities based on recommendations from the Water Distribution System Master Plan and the Wastewater Master Plan. These facilities will allow EVMWD to meet anticipated infrastructure requirements. Proposed improvements to the wastewater system include upgrades to pipelines and lift stations, expansion of the existing Regional Wastewater Treatment Plant, demolition of the existing Horsethief Canyon Wastewater Treatment Plant, and construction of the Lakeshore Sewer and Regional Lift Station. Water distribution system improvements include upgrades to pipelines, pressure regulating valves, booster pump stations, storage reservoirs, hydrants, and a new arsenic removal system for two EVMWD wells. 2004071064	Valley Blvd. Neighborhoods Sustainability Plan San Gabriel, City of San Gabriel--Los Angeles The City of San Gabriel has prepared a Valley Boulevard Specific Plan. The main purpose of the Specific Plan is to implement a new land use strategies that incorporate sustainable practices to guide future improvement and development in the plan area, through the reuse or renovation of existing structures and the construction of new structures. The proposed project consists of a Specific Plan, coupled with a General Plan Amendment (Land Use) and Zone Change. There are no specific development projects proposed in conjunction with the proposed Specific Plan.	EIR	07/03/2006
2005022092	West Ridge Master Plan Redding, City of Redding--Shasta A Master Plan to develop 401 acres with 296 single-family dwelling units. The project will involve a General Plan amendment, a rezoning, two tentative subdivision maps, and an annexation request.	EIR	07/03/2006
2005062009	Antioch Wal-Mart Expansion Project Antioch, City of --Contra Costa Expansion and remodeling of the existing Wal-Mart store located in the Williamson Ranch Plaza. The existing 130,213 square-foot Wal-Mart store will be enlarged by 72,890 square feet, increasing the total floor area to 203,103 square feet. The project will include the development of approximately 3.7 acres of currently vacant land in the western portion of the approximately 21.6-acre Wal-Mart site.	EIR	07/03/2006
2005091105	San Diego International Airport Master Plan San Diego County Regional Airport Authority San Diego--San Diego The San Diego International Airport Master Plan includes the development and operation of the following major project components: expand existing Terminal 2 West with 10 new jet gates; construct new aircraft parking apron; construct new apron and aircraft taxi lane; construct new surface parking and vehicle circulation; and construct a new parking structure, departure curb and vehicle circulation serving Terminal 2.	EIR	09/18/2006
2005111018	Paseo Plaza Los Angeles, City of Los Angeles, City of--Los Angeles Vesting Tentative Tract Map, Zone Change (C4-1VL and R4-1VL to RAS4-1), Zoning Variances (height, Floor Area Ratio, Commercial uses below ground discretionary permits such as haul route, grading and building permits to allow the construction of a 664,440 square foot mixed use project consisting of neighborhood retail and residential components. The project site consists of three properties (Site I, II, and III). Site I consists of 13 tax parcels that total approximately 212,669 square feet (4.9 acres). The proposed project would involve the development of a mixed-use development with approximately 437 residential units, and 377,900 square feet of commercial space (including, but not limited to, retail, restaurant and commercial office uses) on site. Total parking proposed would be 1,811 spaces in three below grade structures.	EIR	07/03/2006

2006052136	Bear River North and Grasshopper Slough Levees Rehabilitation Project Reclamation District 2103 Wheatland--Yuba, Placer, Sutter The District proposes to rehabilitate the Bear River north levee (BRNL) by constructing slurry walls within a number of vulnerable levee segments. Construction of the proposed slurry walls is intended to correct a design deficiency by limiting underseepage to meet safety standards and to help qualify the levees for Federal Emergency Management Agency (FEMA) 100-year flood protection certification for the National Flood Insurance Program (NFIP). As part of the proposed project, RD 2103 also proposes to widen an approximately 1,300-foot length of the BRNL that has been subject to severe waterside erosion. In addition, the proposed project would implement minor improvements to the Grasshopper Slough levee that would include the replacement of corrugated metal culverts under the levee.	MND	06/07/2006
2006051097	Redlands Commons and Trojan Groves Redlands, City of Redlands--San Bernardino The proposed project is comprised of both the Redlands Commons and Trojan Groves development projects. Redlands Commons is a mixed-use project that includes single-family residential, open space consisting of a small park and meandering walkways, single-story office, and retail. Trojan Groves is a commercial project that may include a mix of major commercial, inline retail, neighborhood commercial, restaurant, and/or office uses.	NOP	06/19/2006
2006052131	Conditional Use Permit 2005-04 and Reclamation Plan 2005-01 Glenn County Public Works and Development Services Agency Willows--Glenn Syar Industries has applied to mine sand and gravel in the terrace areas of Stony Creek. Excavation of sand and gravel will be done to a depth of approximately 50 feet mining up to 1,000,000 tons of aggregate per year. A processing site will be constructed on APN: 044-320-011 which includes scales, a vehicle refueling area, and the re-establishment of a railroad spur. Aggregate will be shipped off site via haul trucks and rail cars. It is anticipated that the project will be about a 30 year	NOP	06/19/2006

2002062080	Mirant Power Generation Plant Annexation Project Pittsburg, City of Pittsburg--Contra Costa This is a City-initiated proposal to amend the General Plan land use designations of and/or prezone approximately 1,091 acres comprised of 17 parcels (three partial) within the Northwest River subarea of the Pittsburg General Plan. The purpose of the project is to eventually annex the properties into the City of Pittsburg. The properties are located inside the City of Pittsburg's Sphere of Influence and Planning Area. The proposed General Plan land use designations, which include Industrial, Open Space and Utility/ROW, are consistent with the existing Contra Costa County General Plan land use designations. The proposed rezoning to IG (General Industrial), IL (Light Industrial), OS (Open Space), and GQ (Government Quasi Public) Districts would ensure that all properties are consistent with their respective General Plan land use designations.	Neg	06/19/2006
2006051094	Marina Del Rey 18-inch Pipeline Phases II & III Los Angeles County Department of Public Works Los Angeles, City of, Santa Monica--Los Angeles The project consists of replacing approximately 20,000 feet of existing aged and undersized 10-inch to 14-inch diameter water main in the Marina Del Rey area with a new 18-inch diameter steel water main.	Neg	06/20/2006
2006051095	Gaspar Grading Permits PMT2005-01855, 01858, and 01860 San Luis Obispo County Paso Robles--San Luis Obispo The project involves three separate projects, each consisting of individual requests by Anthony Gaspar for three separate grading permits (all for residential uses on Lots 46, 47, and 73 of Tract 3), which will result in the total physical disturbance of approximately 45,000 square feet (average is 15,000 square feet) on 0.98, 0.99, and 0.97 acre parcels. Total amount of grading is 2,650 cubic yards (cut and fill is as follows: 1,300 cubic yards of cut and 1,350 cubic yards of fill). The proposed projects are in the Agricultural land use category and are located on the north and south sides of Reindeer Place and on the south side of Forked Horn Place, in the County of San Luis Obispo, approximately 6 miles east of the City of Paso Robles. The site is the El Pomar/Estrella planning area. The three projects would be accessible via Reindeer Place.	Neg	06/19/2006
2006051098	King City New Well Station 14-01 Health Services, Department of King City--Monterey Water supply well and appurtenant structures are needed to (1) replace wells abandoned due to nitrate contamination and (2) to supply additional water needed to serve residential and commercial development analyzed in a previous EIR (SCH# 1989101006).	Neg	06/19/2006
2006051100	Santa Clara River Bank Stabilization Santa Clarita, City of Santa Clarita--Los Angeles The purpose of this work is to stabilize an eroded section of Santa Clara riverbank downstream of the Antelope Valley Freeway by removing an existing revetment of "trash" and installing approximately 910 feet of ungrouted rock rip-rap, as well as modifying two existing storm drains. This will prevent further erosion and clean up existing conditions of the riverbank.	Neg	06/19/2006

2006052133	Columbia College Bus/Truck Loop Project Yosemite Community College District Sonora--Tuolumne The Yosemite Community College District is proposing to replace an existing bus/truck service loop at their Columbia Community College campus in Tuolumne County. The proposed project is to be constructed in response to a lack of adequate space and turning room to allow buses, trucks, and other larger vehicles to allow for efficient movement of traffic through the loop, to provide for improved safety conditions in the area in front of traffic through the loop, to provide for improved safety conditions in the area in front of the Manzanita Building, and to comply with ADA standards for parking. The existing lot will be widened 2,090 square feet along one edge to enable easier maneuvering of trucks and large vehicles in the loop and to provide a sidewalk to and from the existing shelter for public transit riders that will remain on site.	Neg	06/07/2006
2006052134	17th and G Street Park (Tower Park) Disposition for Affordable Housing Modesto, City of Modesto--Stanislaus The proposed project is the disposition (acquisition) of the 17th and G Street Park (Tower Park). It is anticipated that the site would eventually be used for development of affordable housing. Under the existing zoning, up to 22 units could be built on the site.	Neg	06/19/2006
2002042002	Cottage Restoration - Addendum Parks and Recreation, Department of Sonoma--Sonoma DPR proposes to restore the stone portion of the Jack London's Cottage to its original 1916 appearance and prepare the entire cottage for use as a house museum that will be open to the public. This addendum includes the installation of four interpretive/directional signs and reconstruction of three small historic elements: a fire hose box, hitching rails, and a garden fence.	Oth	06/19/2006
1998102084	Specific Plan Amendment No. 3 to the Bridle Ridge Specific Plan (SP 98-01) Oakdale, City of Oakdale--Stanislaus A request by Frontier and Land Companies to subdivide Lot 147 (5.616 acres) and Lot 149 (5.059 acres), zoned Bridle Ridge Specific Plan - 02, Medium-Density Residential District of the Vineyards III Subdivision. The project layout includes a total of 115 lots (10.8 homes/acre) that range in size from 2,192 to 4,296 square feet. The project also includes Lots "A" and "DO" for landscaped open space, paseos and pocket parks. All dwelling units will be detached single-family units with two-car garages. Typical yard setbacks range from a minimum of three feet for garages accessing an alley or private street, four-foot side yards, 10-foot front porch setback to street and five-foot porch setback to the paseo. The proposed subdivision is consistent with the allowable residential densities (8-14 du/acre) and zoning as identified in the Medium-Density Residential (MDR-PD) land use designation in the Specific Plan. The General Plan Land Use designation is Medium Density Residential (MDR).	NOD

2006058283	DWR 2006 Critical Levee Emergency Repair Project - Site 18 BEA 2.4L Water Resources, Department of --Sutter As a result of the imminent threat of catastrophic levee failure, Governor Arnold Scharzenegger declared a state of emergency for the California levee system on February 24, 2006. DWR is the lead agency for the planning and construction of this project, which addresses one of the critical levee sites in need of emergency repairs pursuant to the Governor's proclamation. The project site, known as Site 18 BEA 2.4L (Site), is approximately 1,339 linear feet in length with a total project footprint of approximately 0.76 acre. DWR has approved the construction of emergency levee repairs at the Site and has advertised a construction contract for the needed repairs.	NOE

	lots, 9 public facility lots, 1 water tank lot, 1 water pump station lot, and 1 park lot. Necessary grading is anticipated to be approximately 5,900,000 cubic yards. Limited off-site grading is planned immediately north of the subject property. A system of interior curvilinear streets will serve the residences, including roadway extensions of Shadow Pines Boulevard and Snow Drop Court with Shadow Pines Boulevard extending beyond the northern property boundary. Public water and sewer infrastructure serving the surrounding residential areas will be extended to provide service to the 492-unit development. Portions of Tick Canyon Creek running through the subject property will be channelized. All development with the exception of the neighborhood park will take place west of the Tick Canyon Wash.		
2005061132	Castroville Community Plan Monterey County Housing and Redevelopment --Monterey The Castroville Community Plan serves as a long-range plan designed to direct growth and development in a manner than enhances the quality of life in the community of Castroville. The proposed Community Plan provides a guide to promote growth that effectively uses land resources, and provides a safe and attractive environment that is environmentally sensitive and economically viable, while preserving those significant qualities that define Castroville as a unique and desirable community. The proposed Community Plan for Castroville identifies several areas for future growth and redevelopment that have been designated as "Opportunity Areas," which include the Merritt Street Corridor Opportunity Area, Cypress Residential Opportunity Area, Commuter Train Station Opportunity Area, North Entrance Opportunity Area, and New Industrial Opportunity Area. In addition, there are several vacant and underutilized properties within the community that provide additional in-fill development areas and redevelopment opportunities. If the Opportunity Areas and additional in-fill areas were fully developed as contemplated by the proposed Community Plan, approximately 1,655 residential units, 40 new parcels of light industrial development, 50,000 square feet of commercial development, several recreational parks, and a commuter rail station would be built on approximately 403 acres.	EIR	07/20/2006
2005091138	Rio Vista Water Treatment Plant Expansion Castaic Lake Water Agency Santa Clarita--Los Angeles The project is the expansion of the existing Castaic Lake Water Agency (CLWA) Rio Vista Water Treatment Plant (RVWTP) treatment capacity from 30 million gallons per day (mgd) to 60 mgd (16,790 acre-feet per year [AFY] to 33,580 AFY [Average Annual Load]) in response to current and new water quality standards, to improve reliability to meet existing customer demands, and planned future demand. The 16,790 AFY of additional treated water provided by the project would be able to serve between approximately 17,309 and 18,054 households, or between approximately 55,389 and 57,773 persons. Additionally, modifications to the existing ozone treatment system at the RVWTP would be completed.	EIR	07/05/2006
2006051106	New Hope Church San Diego, City of San Diego--San Diego Amendment to Conditional Use Permit and Variance No. 87-0275 to add 22,719 square feet of classrooms to an existing 13,318 square feet of church building for a total permanent building square footage of 36,037 square feet where 24,220 square feet are currently allowed per the CUP. The existing variance for maximum 40 foot building height in a 30 foot high zone would remain.	MND	06/20/2006

	feet and improvements associated with Rodeo Drive.		
2006058145	Transfer of coverage to El Dorado County APN 34-722-16 (Riva) Tahoe Conservancy --El Dorado The sale and transfer of 648 square feet of potential coverage rights from Conservancy-owned land to a receiving parcel on which a private residence will be constructed. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOE	
2006058284	Reduce Accidents Caltrans #2 --Tehama The purpose of this project is to reduce accidents by adding an additional 5 feet of paved shoulder with rumble strips imbedded into the new shoulder pavement. The need for this project is due to the higher number of vehicles that are running off of the road yielding a higher average number of fatalities at this location when compared to the rest of the State Highway System. Additional changes in signing and striping will be required to convert the existing #3 lane to an exit only lane for northbound traffic (southern end of the project). All work is taking place within the existing roadway prism. There is no excavation beyond the depth of the existing structural section. Fill slopes will catch at or near the existing catch points in the median of the highway. No vegetation will be removed. There is less than 1.0 acre of disturbed area. NO disposal site will be needed.	NOE	
2006058285	Improvements Caltrans #2 --Shasta The California Department of Transportation is proposing the following improvements: 02 SHA 299/PM 25.11 on the WB shoulder, approximately 33' from edge off roadway, between SR 299 and the Hawley Road off ramp. Excavate approximately 1.7 cubic yards of dirt and construct a 48" wide, 55" long, and 4" deep concrete pad. A Type 334 electrical cabinet will be mounted on the concrete pad. The existing pull box and traffic loop wires will be connected to the cabinet. The ground has been previously disturbed and is a graded fill section.	NOE	
2006058286	Sleepy Hollow Creek Bank Stabilization Fish & Game #3 San Anselmo--Marin The proposed project involves repairing and stabilizing the stream bank in order to prevent further bank erosion/slumping and loss of property. The applicant proposes to stabilize the stream bank slope utilizing a variety of biotechnical restoration methods including re-grading the bank to 1:1, hydro-seeding, placement and fastening of geo-textile fabric, and planting with native riparian vegetation (willow pole stakes). Excavation and grading will be performed by hand and/or small equipment. The proposed project will not include excavation or placement of fill below the estimated ordinary high-water mark (OHW). The project proposes to minimize potential sediment discharges into the creek by building a temporary structure of plywood and tarps designed to catch and hold sediment before it enters flowing water. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0525-3 pursuant to Section 1602.	NOE

2000061079	Coachella Valley Multi Species Habitat Conservation Plan & Natural Communities Conservation Plan Coachella Valley Association of Governments Coachella--Riverside Establishment and implementation of a MSHCP and trails plan for the 1.14-million acre planning area encompassing the Coachella Valley of central Riverside County. The project provides for the long-term conservation of 27 species and 27 natural communities. It also assures continued mountain trail access compatible with biological resource needs.	NOD	
2000061079	Coachella Valley Multi Species Habitat Conservation Plan & Natural Communities Conservation Plan Coachella Valley Association of Governments Coachella--Riverside The MSHCP is a comprehensive plan that provides for the assembly and management of a conservation area that protects and manages approximately 747,400 acres of habitat for 27 species pursuant to state and federal laws over the next 75 years. The MSHCP will serve as a habitat conservation plan pursuant to Section 10(a)(1)(B) of the Federal Endangered Species Act of 1973, as amended, as well as a Natural Community Conservation Plan under the Natural Community Conservation Plan Act. The MSHCP will be used to allow, through the local land use planning process, the "Take" of the plant and animal species identified in the Plan. Covered Activities would include, but are not limited to, public and private development within the Coachella Valley, maintenance of and safety improvements on existing roads, construction and maintenance of trails and public access facilities, and expansion of certain mining operations.	NOD	
2001091079	North Yorba Linda Estates Yorba Linda, City of Yorba Linda--Orange The project consists of the following modifications to land use entitlements for North Yorba Linda Estates: (1) a zone change to modify the approved development plan for the North Yorba Linda Estates PD (Planned Development) zone to potentially provide for a +/- 6.7-acre (+/- 4.3-acre net) City park facility; (2) a second revision to approved Vesting Tentative Tract Map 16208 to replace former Lot 117 with a water quality retention basin and add two single-family residential lots; (3) Vesting Tentative Tract Map 16987 for the conversion of the approved 383-unit, one-, two-, and three-story senior residential facility to a non-senior condominium residential facility consisting of 228 attached and detached dwelling units within one- and two-story buildings on 14 numbered and 5 lettered lots, the land area for the proposed non-senior condominium residential facility encompassing the former +/- 26-acre senior residential facility site and the approved +/- 6.7-acre City park facility; (4) a conditional use permit for the establishment of the above-mentioned non-senior condominium residential facility; (5) a design review for the architectural design and site planning of the non-senior condominium residential facility. <u>Documents Received on Wednesday, May 24, 2006</u>			
2006052154	Plowshares Peace and Justice Center Community Dining Room Facility Ukiah, City of Ukiah--Mendocino 6,000 square foot single story community dining room facility with associated parking and landscaping.	FON	06/26/2006
2000061040	Road 80 Widening Project Tulare County Resource Management Agency Visalia, Dinuba--Tulare The County of Tulare, the City of Dinuba, and the City of Visalia, in cooperation with the California Department of Transportation and the Federal Highway Administration, propose to improve a 16-mile segment of Road 80 from Avenue 416 in the City of Dinuba to Airport Drive in the City of Visalia. The work would include widening the roadway, improving the interchange at Road 80, and State Route 198, widening on overcrossing and upgrading drainage. The widening would also provide sufficient right-of-way within the project corridor for a Class III bicycle lane.	MND	06/26/2006
2006052159	Planned Development Plan Application PD-6-05, by Saint James Lutheran Church of Redding Redding, City of Redding--Shasta Saint James Lutheran Church is requesting approval to develop a new church complex on approximately 16 acres located along the south side of Knighton Road, just west of Clover Creek. In accordance with the property's Planned Development Overlay zoning, a master development plan has been submitted to the City for approval under a use permit process. The church complex would be developed in two phases, with primary uses to include a 32,600-square foot worship center and a 95-unit senior housing development. Accessory features include a small outdoor amphitheater, sports field, playfield, gazebos, maintenance building, and various pedestrian facilities.	MND	06/22/2006
2006052160	Cunningham Siphon Partial Replacement Nevada County Irrigation District Grass Valley--Nevada The project consists of the partial replacement of the Cunningham Siphon. This existing, raw water conveyance currently runs underground, crossing under both Dog Bar Road and Alta Sierra Drive to meet the Rattlesnake Canal. NID proposes to replace the existing 22-inch, thin-walled steel siphon pipe with a new minimum size of 24-inch diameter pipe. The new pipeline would be re-routed, beginning after the existing siphon crosses under Dog Bar Road, to an alignment that parallels that road. The replacement pipe would be installed in the dirt shoulder of the road. No change would be made to the Dog Bar Road pipeline crossing.	MND	06/23/2006
2006022106	First Street Bridge Replacement Project Napa, City of Napa--Napa The City of Napa proposes to replace the existing bridge on First Street over the Napa River and construct a new bridge that meets current California Department of Transportation (Caltrans) requirements, American Association of State Highway and Transportation Officials (AASHTO) requirements, and U.S. Army Corps of Engineers (ACOE) freeboard requirements. The City of Napa is responsible for replacing and constructing several bridges as part of the Flood Reduction Project.	NOP	06/22/2006

2006052158	Miraflores Housing Development Toxic Substances Control, Department of Richmond--Contra Costa DTSC is considering approval of a Remediation Action Plan (RAP) to complete remediation activities required at the Miraflores Housing Development (Site) located in Richmond, CA. Remediation activities would include excavating and transporting 4,400 cubic yards of lead-, pesticide-, and petroleum hydrocarbon-affected soil off-site for disposal; import and placement of 4,200 cubic yards of clean fill; removal and disposal of several underground storage tanks (USTs) and a hydraulic lift, and groundwater monitoring. Most excavations will only extend one to two feet below ground surface (bgs). However, removal of the USTs, hydraulic lift, and areas of petroleum hydrocarbon-affected soil will require excavations ranging from 10 to 14 feet. The estimated duration of remediation activities is 10 to 12 weeks. The RAP has been prepared in accordance with California Health and Safety Code (HSC). Chapter 6.8, Section 25356.1.	Neg	06/22/2006
1997062005	Cayetano Corporate Campus - City of Livermore Livermore, City of LIVERMORE--ALAMEDA As part of the Montage project, a clear span bridge will be installed in order to extend Portola Avenue. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2006-0112-3 pursuant to Section 1602 of the Fish and Game Code to the project operator, David Best / Shea Homes at Montage, Incorporated. 2006051120	<p>The Halcyon Road Climbing Lane Project is intended to correct significant deficiencies with this existing two-lane rural principal arterial roadway between its southern intersection with Highway 1 and a point approximately 3,120 feet to the northwest.</p> <p>Santa Fe Subdivision Calexico, City of Calexico--Imperial</p> <p>The proposed project includes a Specific Plan, General Plan Amendment (GPA), Pre-Zoning, and Annexation of a 235 acre residential and commercial development into the City of Calexico. In the Imperial County General Plan, the proposed project site is designated Urban Area and zoned Agriculture within Urban Overlay (A-2-U). Under the proposed GPA, the project would be designated residential and highway commercial (CH). Specifically, the project is proposing 668 single-family homes (minimum of 6,000 square feet), 25 acres of condominium units, and 14.69 acres of commercial development. Additionally, the proposed project will construct a 14.68-acre retention basin on the northwest corner of the project site. This retention basin will be landscaped and serve as parkland for the development. The proposed project will also set aside 13.7 acres for an elementary school for the Calexico Unified School District. Per the Imperial Irrigation District, a substation is required to be built in the project vicinity to provide electricity to the development. Negotiations are ongoing regarding whether the substation will be built on the proposed project site or an adjacent project site.</p>	NOP	06/23/2006
2006051121	<p>Jasper Corridor Calexico, City of Calexico--Imperial</p> <p>The Jasper Corridor MEIR will address the environmental impacts associated with three project: Las Ventanas, Esmeralda Estates and Rancho Diamante. The Imperial County General Plan currently identifies the project area site as County Urban Area, and the zoning is County A2U. The project proposes an annexation into the City of Calexico. The project also proposes a General Plan Amendment, Sphere of Influence Amendment, Pre-Zoning, Tentative Map and Specific Plan for the City of Calexico.</p> <p>The Las Ventanas Specific Plan proposes to construct 1,041 residential units, 27.32 acres of community commercial, a school, parks, retention basin and roads. The proposed single family residential will range from 7,000 to 4,000-square foot lots. The Esmeralda Estates Tentative Map proposes the subdivision of approximately 80.08 acres to develop 291 single-family residential units, 2.61 acres of neighborhood park, fire station, a retention basin, roads and open areas as pedestrian linkages. The Rancho Diamante Specific Plan proposes 2,483 single-family homes, 980 4-plex models and 658 condominiums. Neighborhood commercial uses are proposed at the Bowker Road and Jasper Road intersection and at Cole Road. Rancho Diamante also proposes four school sites, 99.6 acres of community parks, and two retention basins.</p>	NOP	06/23/2006

	serving retail uses. The project also proposes construction and operation of a new automobile dealership (i.e., Sanderson Ford).		
2006052162	Westfield Valley Fair Site Development Permit File No. H06-027 San Jose, City of San Jose--Santa Clara The proposed project consists of an approximately 610,000 gross square foot expansion of the existing Westfield Valley Fair Shopping Center to accommodate up to two new anchor stores and additional retail space. The project also includes the demolition and reconstruction of two existing parking structures. These two new five-level parking structures would be up to approximately 930,000 total square feet in size, would include roof-top parking and would provide approximately 2,300 additional parking spaces, bringing the total number of on-site parking spaces to approximately 9,500 spaces. The existing commercial buildings would be demolished and relocated as part of the project. Including two bank buildings located along the southern boundary of the site and the grocery/drug store buildings located near the southwestern corner of the site. The bank buildings are currently located within the City of San Jose and would be relocated to the southwestern portion of the site in the City of Santa Clara. The grocery/drug store buildings would be relocated to the north of the existing building, and would remain within the City of Santa Clara. The project also includes access and circulation improvements, including the relocation of a southern driveway along Steven's Creek Boulevard so that it would align with South Baywood Avenue. This realignment would require the relocation of the traffic signal on Steven's Creek Boulevard. Other access and roadway improvements are also proposed along the western boundary of the site along Winchester Boulevard and could include the relocation of the existing traffic signal at Dorcich Street.	NOP	06/23/2006
2006052164	Manteca Wastewater Quality Control Facility Master Plan and Collection System Master Plan 2005 Update Manteca, City of Manteca--San Joaquin The proposed project would incrementally increase the treatment capacity of the WQCF from 9.87 million gallons per day (mgd) to 27 mgd average dry weather flow (ADWF), increase wastewater effluent discharges to the San Joaquin River, result in discharge of wastewater effluent on urban and agricultural lands, result in minor improvements to existing sewer lines, and result in the construction of three new trunk sewers measuring a total of approximately 21 miles.	NOP	06/23/2006
2006041093	New Salton City Elementary School Project Coachella Valley Unified School District --Imperial The Coachella Valley Unified School District ("District") proposes to build and operate a K-6 Elementary School ("Project"). The Project would involve the construction or installation of stucco modular buildings and operations of an elementary school on approximately 13 or 14-acre parcels of real property. The project will involve the construction or installation of classrooms and supporting facilities to accommodate approximately 600 students in grades K-6, and construction or installation of administration and library buildings; a serving kitchen; an outdoor food shelter; a multi-purpose auditorium; parking facilities for visitors and staff with approximately 60 to 70 spaces on site; and athletic play courts including hardscape and turf playfields. Lighting includes low level security lighting, signage lighting, and illumination of the surface parking lot and associated pedestrian areas.	Neg	06/23/2006

	Covered Activities would include, but are not limited to, public and private development within the Coachella Valley, maintenance of and safety improvements on existing roads, construction and maintenance of trails and public access facilities, and expansion of certain mining operations.		
2005111103	Warthan Creek Widening Project Coalinga, City of Coalinga--Fresno The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement pursuant to Section 1602 of the Fish and Game Code to the project applicant, Hofmann Land Development Company. The applicant proposes to widen approximately 3,500 linear feet of Warthan Creek to reduce flooding in the surrounding area and allow for the development of a 351 single family subdivision approved as Fresno County Tract #5451.	NOD	
2005121145	El Cidro Ranch; TM 5222RPL, Log No. 76-07-087A San Diego County Department of Planning and Land Use --San Diego The project proposes a subdivision of 30.13 acres into 10 lots that will range in size from 2.00 acres to 4.46 acres net. The project will take access from Saddleback Road (private) and one new cul-de-sac is proposed on-site. Private septic systems will provide sewer disposal. One existing well on lot 6 is to be abandoned. Open space and a 10-foot non-motorized trail easement will be located in the western portion of the site.	NOD	
2006042055	Pioneer Reservoir Phase I Seepage Berm Project Reclamation Board Sacramento--Sacramento Seepage berm and relief wells.	NOD	
2006058361	Emergency Canal Bypass Amador Water Agency Sutter Creek--Amador The project includes 3,400 lineal feet of 18 inch water pipe along Ridge Road along with a pump station to bypass a portion of a source water canal which was destroyed in a land slippage which occurred during a sequence of disaster storm events. The project also includes temporary emergency pipes along the source water canal and modifications to the remainder of the canal in the vicinity of the destroyed section to prevent further loss of property or life. This project will restore water supply to the cities of Sutter Creek, Jackson, Amador City, lone; community of Drytown; and surrounding vicinities.	NOE	
2006058362	Proposed Replacement Well 2F Health Services, Los Angeles, Department of El Monte--Los Angeles Drill, equip and place into service a new municipal water well (replacement well for existing Well 2C) to provide a reliable source of water for domestic use.	NOE	
2006058363	City of Eureka Campton Drainage Project Eureka, City of Eureka--Humboldt Due to the heavy rains during the winter of 2005-2006, together with current and past land management practices, three of the five 48-inch RCP culverts on Martin Slough at Campton Road are almost completely clogged with sediment. This project proposes a 5-year cleaning and maintenance program to address this situation.	NOE

2006058364	<p>City of Eureka 2006 Drainage Cleaning Project Eureka, City of Eureka--Humboldt</p> <p>The project involves a 5-year cleaning and maintenance program for the following culverts and drainage ditches: (1) a 36-inch RCP culvert and a 42-inch RCP culvert on Fern Drive approximately 200 feet east of Campton Road; (2) two 36-inch RCP culverts at the Morgan Place cul-de-sac; (3) a 36-inch CMP culvert on West Avenue at the S Street dip; and (4) drainage ditches along Indianola Road from Indianola Cutoff to Walker Point Road. The project will entail the manual removal of vegetation in and around the above described existing drainage ditches and culverts. Accumulated silt will be removed by vacuum truck, backhoe or excavator staged on roadways adjacent to the project sites. At the three culvert locations, sediment removal will be limited to areas in front of the culverts. Disturbance will be limited to the minimum necessary to accomplish the identified task. Cleaning and maintenance will be conducted in the dry to the extent feasible. If work is unavoidable when water is flowing in the ditches, standard construction BMP's for the protection of water quality, such as installation of a sediment curtains, will be employed.</p>	NOE

2005111021	Boulevard Apartments San Diego, City of San Diego--San Diego The Boulevard Apartments: Site Development Permit to allow for the demolition of two existing buildings; one 1-story and one 2-story wood frame buildings on a 10,650 sq.ft. site (on a 0.24 acre) and construct a 34,763 square foot 4-story building with a 3-story apartment building over a first floor office and parking garage. Twenty-four residential (for rent units with affordable units) apartments are proposed on three (each floor 8,638 square-feet) floors. The roof level would include a barbeque area and equipment play area for children.	NOP	06/26/2006
2005111093	2nd Street & E Street Mixed Use Specific Plan San Bernardino, City of San Bernardino--San Bernardino The City of San Bernardino will be responsible for preparing a program level Environmental Impact Report (EIR) to analyze implementation of the 2nd and E Street Mixed Use Project. The proposed project is envisioned to consist of a maximum of 750 single-family attached/detached dwelling units, with a maximum density of 35 dwelling units per acre. In addition, the proposed project is envisioned to consist of a maximum of 135,000 square feet of retail and other commercial uses.	NOP	06/26/2006
2006051124	South Region Middle School No. 3 Los Angeles Unified School District --Los Angeles LAUSD proposes to construct the South Region Middle School No. 3, which would accommodate 1,404 two-semester seats for grades 6 through 8. Current plans are to operate the proposed project on a traditional two-semester calendar to relieve overcrowding at Gage Middle School. The proposed facilities would total approximately 125,000 square feet of new building development and include 52 classrooms, a food service area, library/media center, a multi-purpose room, gymnasium, performing arts area, and administrative offices.	NOP	06/26/2006
2006051125	Primavera Courts Specific Plan Hawthorne, City of Hawthorne--Los Angeles Specific Plan that provides for re-use of the 4.38-acre project site. The site is comprised of two lots that were formerly used by the South Bay Ford dealership, mortuary, and other commercial uses. The lots front on Hawthorne Boulevard, and are bounding 138th Street 141st Street. The Specific Plan will provide for the re-use of the site with 155 residential units comprised of flats, lofts, and townhomes in the interior of the site. Neighborhood-oriented/commercial uses, such as a small restaurant/cafe, small retail, office, and flex space will be located along Hawthorne Boulevard.	NOP	06/26/2006
2006051126	The Paredon Project Carpinteria, City of Carpinteria--Santa Barbara The Paredon Project would utilize extended reach drilling from Venoco's Carpinteria Oil and Gas Processing Facility (CPF) to reach oil and gas reserves located primarily offshore in State Leases PRC 3150 and PRC 3133, and in an onshore area east of the City of Carpinteria which may include portions of PRC 3133. 2006052170	Burson Rehabilitation Caltrans #10 --Calaveras The California Department of Transportation proposes to rehabilitate a portion of State Route 12 in Calaveras County, just east of Wallace (0.5 miles east of Southworth Road [postmile 3.0]) through the community of Burson to Cedar Street (postmile 9.9) in Valley Springs.	Neg	06/26/2006
2006052172	Dublin Village Historic Area Specific Plan and General Plan Amendment, et al Dublin, City of Dublin--Alameda The Initial Study is for a Specific Plan and related General Plan Amendment to designate lands for the expansion of the City's Historic Park and the implementation of the Park Master Plan.	Neg	06/26/2006
2006052173	Amend Existing Permit for Dry Boat Storage and General Plan Amendment Contra Costa County Community Development Oakley--Contra Costa The applicant requests approval to amend an existing land use permit, to expand a marina (Sugar Barge Resort) by constructing 19 metal buildings for dry boat storage and recreational vehicles with parking on a 38 acres site. In addition, the proposal includes a General Plan Amendment, County File #GP040001 that changes the General Plan designation from SL (Single Family Low Density) to CR (Commercial Recreational).	Neg	06/26/2006
2006052174	Transfer Pump Station Self Generation Project Contra Costa Water District --Contra Costa Construction of the Transfer Pump Station Self Generation Energy Project. The proposed project consists of a single 1 MW blade-pitch-controlled turbine atop an approximately 70-meter (230 feet) tall tubular tower. The turbine includes three 29.5 meter (97 feet) blades that form a rotor with a diameter of 61.4 meters (201 feet). It is estimated that the turbine would be turning approximately 50 percent of the time on an annual basis.	Neg	06/26/2006
2006052176	Kinsey Special Permit (SP-05-106) for the Placement of a Seasonal Bridge within a Streamside Management Area Humboldt County Community Development Services --Humboldt The Kinsey Ranch is seeking approval to install a seasonal bridge (May 15-November 15 annually) on the East Branch of the South Fork of the Eel River (East Branch) to provide vehicle and supply access to the Kinsey Ranch during the summer months. The Kinsey Ranch has been owned by the Kinsey family and operated as a livestock ranch since 1914. The Kinsey Ranch is approximately 7,000 acres. During the wet weather season, the applicants and/or their lessee transport supplies to the ranch via footbridge that is located approximately 100 feet upstream from the proposed seasonal crossing. Due to the limited amount of supplies that can be transported by way of the footbridge, ranch operations are curtailed and limited to what can be hand-carried. Since the 1950s, the applicants have used the summer bridge to not only get necessary supplies to the ranch, but also to get vehicles and equipment required for ranching operations to the site, which is not possible during the winter. The bridge was originally a log bridge, and then in the 1970s, a rail car was used. Traditionally, the seasonal bridge has been installed in May and removed in late-October through early November of each	Neg	06/26/2006

	parking capacity through the provision of additional parking lots and a parking structure. Overall, the plan focuses on facilities that support campus activities and proposes construction of approximately 146,000 additional assignable square feet (a.s.f.) of building space on the campus for a total of approximately 543,000 a.s.f. on site. Based on the environmental analysis in the Addendum, preparation of a subsequent or supplemental EIR for the proposed project is not required.		
2005041105	South Region High School No. 2 Los Angeles Unified School District Los Angeles, City of--Los Angeles The proposed South Region High School No. 2 project entails the acquisition of 71 parcels; vacation of streets and alleys; construction and operation of an educational facility; and potential joint use of Bethune Park. The proposed high school campus would include 75 classrooms, administration rooms, a multi-purpose room/cafeteria, food services area, lunch shelter, library, playfields, gymnasium, and subterranean parking. The school would provide 2,025 two-semester seats for grades 9 through 12 and an assumed event adult school program of approximately 450 seats. The proposed high school site would also be available for community uses during non-school hours.	NOD	
2005041151	South Region Elementary School No. 3 and Early Education Center No. 1 Los Angeles Unified School District Cudahy, Bell--Los Angeles The proposed project includes the acquisition of an approximate 4.8-acre site, demolition of existing structures, construction of education facilities, operation of 775 two-semester elementary seats and 175 early education center seats, and community use of the campus during non-school hours. The proposed campus would include 38 classrooms (31 elementary school classrooms and seven early education center classrooms), a multi-purpose room, food services, a library, administrative offices, playfields, and subterranean parking for faculty and staff.	NOD	
2005061027	LAUSD Point Fermin Outdoor Education Center Los Angeles Unified School District --Los Angeles The proposed project entails providing year-round, overnight facilities for 160 student/counselor beds at the existing Point Fermin OEC. Currently, the Point Fermin OEC handles 120 student/counselor beds that are housed in tents and operated during the summer. The proposed improvements would include demolition of an existing building (Building No. 852, a historical resource), and construction of two new student dormitories and a residence building for staff and visiting classroom teachers. The proposed project would also include restoration of a brick storage building for indoor activities during poor weather and a residential structure for an onsite naturalist/caretaker staff. The existing outdoor school building will be modified to include an infirmary, and expanded shower and toilet facility, and a new outdoor ecological teaching facility and landscaped area. Additional fencing and security measures, including a fire access road would be provided.	NOD

<u>Documents Received on Tuesday, May 30, 2006</u>			
2006051134	Lumina Townhome Project Escondido, City of Escondido--San Diego The proposed project involves a development of a 67-unit townhome project on a 3.45-acre site and includes the removal of five buildings (that have been determined to not be historically significant). The proposal includes a General Plan Land Use Element Amendment to redesignate the site from General Commercial to Planned Development- Mixed Use, a Zone Change to reclassify the zone designation of the site from Commercial to Planned Development-Mixed Use, a Planned Development for the Townhome project, and a tentative subdivision map to merge multiple existing parcels into two parcels and to create an "air-space" condominium development.	Neg	06/28/2006
2006052184	Cosetti and Creson Subdivision (Tentative Map 9015) Oakley, City of Oakley--Contra Costa The proposed project includes a rezone of the site from General Agriculture (A-2) to Planned Development District (P-1) to provide flexibility in development regulations to accommodate a development plan that is consistent with the parameters of the Oakley General Plan SM district. The SM designation allows a density of 2.3 to 3.8 dwelling units per gross acre. The proposed 98-units gives the project a density of 3.5 dwelling units per acre. Because of the flexibility described above regarding the P-1 zoning and the fact that the site is planned for residential in the General Plan, the proposed project would be consistent with the rezoning and density allowed in the General Plan.	Neg	06/28/2006
2006052185	Santa Rosa Village Santa Rosa, City of Santa Rosa--Sonoma Rezoning 14.6 +/- acres from "PD" (Planned Development) Zoning to CSC Community Shopping Center District; concurrent Conditional Use Permit, Tentative Subdivision Map, and Design Review to divide the property into 3 commercial parcels with 98,500 square feet of retail and 126 residential condominiums.	Neg	06/28/2006
2006052186	Alameda County Pedestrian Master Plan for Unincorporated Areas Alameda County --Alameda The Pedestrian Master Plan identifies policies to promote pedestrian safety and access throughout Alameda County Unincorporated Areas. It designates pedestrian activity corridors that connect parks, schools, neighborhoods, and commercial districts throughout the Alameda County Unincorporated Area. The designation of the pedestrian activity corridor is a planning tool for understanding where physical improvements are most needed and where those improvements would have the most positive impact. The plan also recommends pedestrian design elements to encourage higher standards for pedestrian safety and access in the future County projects.	Neg	06/28/2006
2006052187	Remedial Action Plan for Investigation Area (IA) H1 Toxic Substances Control, Department of Vallejo--Solano The objectives of the Remedial Action Plan includes the following: Install RCRA Subtitle C and D capping systems in the containment area, install a fence around the containment area, excavate and consolidate hot spot areas from the upland and Non-tidal Wetland Areas, install a 2 foot soil cover over upland areas that	Neg	06/28/2006

	culverts and discharge it to San Juan Creek. Asphalt concrete (AC) dikes would also be incorporated to minimize erosion. Corrugated metal pipe (CMP) culverts would be replaced by reinforced concrete pipe (RCP) via open cut method. Replacement would occur only from the level of the roadway. All RCP would be installed at the same location where currently CMP exist. The operator shall not impact more than 0.125 acre of stream channel and associated wetland/riparian habitat subject to Department jurisdiction pursuant to Fish and Game Code Section 1600 et. seq. of which approximately 0.055 acre are permanent impacts and approximately 0.07 acre are temporary impacts. The operator shall mitigate for impacts by removing four acres of Arundo donax and/or other invasive riparian vegetation from the San Juan Creek watershed, remove existing asphalt and structures at the Lower San Juan Creek Picnic Area, restore 0.24 acre of oak woodland, 0.335 acre of chaparral, and create 0.444 acre of riparian vegetation (including wetlands) at the Lower San Juan Creek Picnic Area (adjacent to San Juan Creek) and a total of 0.37 acre of coastal sage scrub will be restored at the on-site planting area and barrier fencing will be installed to keep arroyo toads from entering the construction area.		
2005071103	PFI Realty Grading Permit; L14408, Log No. 03-08-035 San Diego County Department of Planning and Land Use --San Diego The grading permit request is to document an apparent grading violation on the subject property, which is in the Multiple Species Conservation Program (MSCP) area. This work includes the culverts under the driveways, retaining walls placed in the creek for bank erosion prevention and stabilization purposes and the desiltation basins created in the subject drainage adjacent to the eastern driveway on the project property. The subject drainage is predominantly a southern coast live oak riparian forest and California Department of Fish and Game jurisdiction. All the work was completed in the late 1980s and early 1990s, no new work is being proposed.	NOD	
2006021033	I-15 Joint Port of Entry Project Caltrans #8 --San Bernardino Caltrans, in conjunction with the California Department of Food and Agriculture (CDFA), the California Department of General Services, and the California Highway Patrol (CHP), propose to construct a Joint Port of Entry (JPOE) inspection facility on I-15 near the California/Nevada border. The new facility would be located on the northwest side of southbound I-15 between the Yates Well Road interchange and the Nipton Road interchange, along Postmile 177.3 to 181.1. The proposed JPOE would provide for CDFA agricultural inspection and CHP commercial vehicle enforcement. Upon completion of the proposed project, all traffic entering California on southbound I-15 would be diverted through the JPOE. Also upon completion of the new JPOE facility, the existing agricultural inspection station located near Yermo, along Postmile 87.2 to 87.5, would be removed and that portion of southbound I-15 would be restored to uninterrupted traffic flow. 	circulated for public review in September 2004. (Under the current General Plan, this area could accommodate up to 599 dwelling units and 721,000 square feet of commercial development, with no designated open space.) It should be noted that the proposed Specific Plan would not provide approval of a precise project but would be used to guide future development and to evaluate future project proposals.		
2004091057	<p>Lake Elsinore Advanced Pumped Storage Project (LEAPS) and Talega-Escondido/Valley-Serrano 500 kV Interconnect Project (TE/VS Interconnect)</p> <p>Elsinore Valley Municipal Water District</p> <p>Lake Elsinore--Riverside</p> <p>Pumped Storage Upper Reservoir:</p> <p>The proposed project would include a new upper reservoir located within the Cleveland National Forest in the mountains above Lake Elsinore. One proposed location for the upper reservoir would be in Morrell Canyon and the other in Decker Canyon. The reservoir would be approximately 100 acres in surface area and be able to hold roughly 5,500 acre-feet of water.</p> <p>Pumped Storage Powerhouse:</p> <p>Three potential powerhouse locations have been identified for the proposed project, referred to as the Ortega Oaks, Santa Rosa and Evergreen Sites. The powerhouse will be located underground in close proximity to Lake Elsinore and will contain two or more reversible pump-turbine units. The size of the site will be less than 100 acres.</p> <p>Pumped Storage Water Conduits:</p> <p>The proposed project includes underground high-head and lowhead water conduits, which will connect the upper reservoir to the powerhouse and Lake Elsinore below, and channel water between the upper reservoir and Lake Elsinore during the project's operation.</p> <p>TE/VS Interconnect:</p> <p>This portion of the project would consist of an approximately 30-mile overhead 500kV electrical transmission line interconnecting SDG&E's existing Talega-Escondido 230-kV transmission line in western Riverside County.</p>	NOP	06/29/2006
2006051135	<p>City of Sanger Wastewater Treatment Plant Master Plan Environmental Impact Report</p> <p>Sanger, City of</p> <p>Sanger--Fresno</p> <p>The project consists of the adoption of the proposed Waste Water Treatment Master Plan for the City's Wastewater Treatment Plant (WWTP) and the associated upgrade and/or expansion and operation of the facility through the year 2035. The project site is located about 1.5 miles southwest of the center of the city and west of the Kings River.</p> <p>New improvements include the following: construction of a headworks to replace the existing domestic headworks, a parshall flume for influent pump station, an oxidation ditch and associated facilities, two 55-foot diameter secondary clarifiers, a RAS Pump station, disinfection facilities including a duplicate of the existing tank and metering pumps, a chlorine contact basin, and a second centrifuge. In addition, new support facilities include: Control/ Administration Building, expansion of maintenance building, two new standby generators, upgrade of existing electrical system, and SCADA workstations through the plant. The existing public work building would be expanded. Two of the existing effluent pumps would be replaced with larger pumps. A second domestic force main (18-inch diameter) to transport</p>	NOP	06/29/2006

	conveyance directly to Lake Tahoe without treatment		
2005012087	Skyland Erosion Control Project (PEAQ 2004 086) Placer County Planning Department --Placer The project area is located immediately adjacent to Lake Tahoe. Excessive runoff is generated by impervious residential development, including paved and unpaved roadways and rooftops. A variety of unstable sediment sources exist in the project area, including eroding road shoulders, cut slopes and two unpaved County maintained roadways (Wildrose Drive and Laurel Avenue). Storm water runoff in the project area typically flows down unstable earthen road shoulders and into drainage systems that quickly convey sediment and nutrients to Lake Tahoe, contributing to the reduction of clarity of the lake.	NOD	
2005041169	Neenach Pumping Station Turnout Facility Los Angeles City Department of Water and Power Lancaster--Los Angeles LADWP is proposing to construct and operate the Neenach Pumping Station Turnout Facility to allow direct deliveries of raw water from the California Aqueduct to Los Angeles via the First Los Angeles Aqueduct (FLAA) to make up for reduced withdrawals from the eastern Sierras as well as to enhance existing system reliability by permitting an alternative means of making deliveries into the LADWP system. DWR must separately approve the delivery of non-State Water Project (SWP) water to the proposed turnout. Once the source of any non-SWP water LADWP plans to procure is identified, that transaction will be evaluated for compliance with CEQA as a separate Project.	NOD	
2005052052	Walsh Properties New Parking Area (PMPB 2004 0213) Placer County Planning Department --Placer The California Tahoe Conservancy has approved the sale and transfer of 558 sq. ft. of hard coverage rights from Conservancy-owned land to receiving parcels on which the buyer will construct a permanent parking area in the Tahoe Vista Community Plan area. The parking area will partially replace a temporary gravel parking area used for a marina and restaurant. The transfer enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the hydrologically-related area.	NOD	
2005122039	Angora 3 Erosion Control Project and Angora Creek Fisheries Enhancement Project El Dorado County South Lake Tahoe--El Dorado El Dorado County proposes to construct and maintain storm water facilities and implement erosion control practices in the Mountain View Estates subdivision, as identified in the Lake Tahoe Environmental Improvement Program. Also included in this project is a fisheries enhancement project in Angora Creek which will improve fish habitat and passage by removing and replacing degraded culverts under Lake Tahoe Boulevard.	NOD

	identified in the Lake Tahoe Environmental Improvement Program. Also included in this project is a fisheries enhancement project in Angora Creek which will improve fish habitat and passage by removing and replacing degraded culverts under Lake Tahoe Boulevard.		
2005122047	Chlorine Conversion Project North Tahoe Public Utility District --Placer The North Tahoe Public Utility District intends to construct a 155 square foot building and related improvements to replace a chlorine gas sewage treatment facility with a sodium hypo choride system to meet Placer County Environmental Health requirements. The California Tahoe Conservancy has approved the assignment of up to 132 square feet of restoration credit needed for the Chlorine Conversion Project. The assignment of restoration credit enables the receiving landowner to carry out the project without any net increase in the amount of existing land coverage in the sensitive land-class area with the Tahoe Basin.	NOD	
2005122055	Grandview Inn St. Helena, City of St. Helena--Napa The proposed project consists of the conversion of a +/- 3.38 acre parcel containing +/- 40 existing multi-family apartments in eight separate structures and a maintenance building into a mixed-use commercial inn and residential project containing a 35-room inn with 22 studio apartments. The main house would be restored to its historic use as an inn to include a reception area, common areas for guests, a remodeled commercial kitchen and space for business operations (i.e., office, storage, housekeeping, etc.) located on the first floor and 7 inn rooms on the second and third floors. Additionally, three of the existing buildings ("Redwood", "Oak", and "Pine") would be remodeled to include 28 inn rooms. All 22 studios would be in the two existing Palm Buildings located on the northeast corner of the site and in the existing Walnut Cottage. The remaining two buildings (Plum Cottage and Maintenance Building) would be demolished and replaced with a new 7,190 square foot building containing up to 10 inn rooms on two levels (Laurel Cottage) and a 301 square foot pool house.	NOD	
2005122099	Lake Forest Erosion Control Project (PEAQ T20050974) Placer County Planning Department --Placer The proposed project is a portion of Environmental Improvement Project #10063. The proposed improvements will stabilize eroded roadside shoulders and ditches, add infiltration cans to steep roadside ditches, and divert runoff to upland SEZ for treatment where possible. In addition, improvements will be designed to allow for maximum infiltration and reduction in pollutant loads including the potential use of underground infiltration chambers beneath County roads. The project also includes County property and easement acquisitions, and license agreements for the use of Conservancy property for water quality improvements. The goal of the project is to substantially reduce the discharge of sediment and nutrients to Lake Tahoe from the Dollar Point subdivision in order to protect the clarity of Lake Tahoe.	NOD

2005122102	Tamalpais High School - Keyser Hall Tamalpais Union High School District Mill Valley--Marin The project is the demolition of a 25,398 square foot classroom building located on the Tamalpais High School campus. The demolition is necessary to permanently remove a significant health hazards resulting from the presence of mold (Penicillium/Aspergillus). Keyser Hall has been rendered uninhabitable due to this contamination which is a result of faulty and inadequate drainage system within the crawlspace under the building(s) foundation.	NOD	
2006031042	MacArthur Pump Station Rehabilitation Project Orange County Sanitation District Newport Beach--Orange The proposed project would design and construct mechanical, electrical, instrumentation and controls, structural, and architectural improvements to bring the existing facility into compliance with Sanitation District standards, and local, state, and national codes.	NOD	
2006041053	Enrique "Kiki" Camarena Junior High School Calexico Unified School District Calexico--Imperial The Calexico Unified School District proposes to acquire an approximately 30-acre site to construct and operate the new Enrique "Kiki" Camarena Junior High School within the C.M. Ranch Specific Plan, which will begin development this year. The proposed new junior high school is intended to accommodate the student population generated as a result of the new residential development within the Specific Plan area as well as additional development within the City and District. The school would serve grades seventh through ninth and have an enrollment capacity of 1,017 students. The junior high school is project to open in the fall of 2007 and is anticipated to operate on a traditional calendar, beginning in early September and ending in mid/late June the following year.	NOD	
2006058462	Monitoring Constructed Wetlands to Improve Water Quality of Irrigation Return Flows University of California, Davis --Stanislaus Collecting and analyzing water samples and monitoring hydrologic parameters to monitor the ability of constructed wetlands to improve the water quality of irrigation return flows of a suite of contaminants to the San Joaquin River. Flow velocity meters, level sensors, and v-notch weirs will be attached to existing infrastructure.	NOE	
2006058463	Addition of Portable Classrooms at Quartz Hill High School Antelope Valley Union High School District --Los Angeles Addition of 7 portable classrooms within the existing Quartz Hill High School grounds necessary to accommodate the rapidly growing student population in the Quartz Hill area.	NOE	
2006058465	Piedras Grandes Cultural Resources Assessment (05/06-CD-21) Parks and Recreation, Department of --San Diego This project will assess the impacts upon the Piedras Grandes cultral site from recent human activities, including possible looting. The site to be tested is designated CA-SDI-1304, and is located at the southern end of Anza-Borrego Desert State Park. There are multiple small circle pits present, with some having	NOE
